AYER'S PILLS,

A NEW and singularly successful remedy for the gestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousuess, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surressing extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and

such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have

should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any my whole has not received them, they will be one who has not received them, they will be promptly forwarded by mail to his address. Of all the Patent Medicines that are offered, how few would be taken if their composition was known!

Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

ing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take,

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

Wistar's Balsam of Wild Cherry The best Remedy ever known to Man For Coughs, Colds, Asthma, Croup, Bronchilis Influenza, Bleeding of the lungs, Difficul-Breathing, Liver Affections, Pain or Weakness of the Breast or Side, &c.,

S.c. INFLUENZA AND CONSUMPTION.—It is indeed a melan choly truth, that thousands fall victims of Consumptio every year from no other cause than neglected colds yet we find hundreds and thousands, who treat suc complaints with the greatest indifference, and let then run ou for weeks, and even months, without thinking of the danger. At first, you have what you consider a slight cough or cold: allow business, pleasure, or care lessness to prevent you from giving it any attention: i then settles upon your breast, you become hoarse, have pairs in the side or chest, expectorate large quantitie of matters, perhaps mixed with blood; a difficulty breathing ensues, and then you find your own foelis neglect has brought on this complaint. If, then, you value your life or health, be warned in time, and don't

Dear: Sir-As I consider that my life has been greatl rolonged by my being cured of Consumption by the afflicted may be induce, to try this invaluable remedy I experienced great difficulty in breathing; had the hec chills, with severe pain in my side and breast, accompanied by a very bad cough; was very restless at nights and had great night sweats, perspiring, I should say, at least two gallens a night, wetting the bed completely through I had not been able to work for years. But I was much emaciated, and almost belpless when I have used in all 13 bottles, and I am now free from all

those complaints, for my health is good. I am now 55 years old, and have not taken any of the Balsam since 1846, because my health is so good as not to require any medicine. But if I should have any return of my former symptoms, I shou'd use Wistar's Balsam of Wild Cherry. I procured the medicine of Mes rs. Fall & McCracken, your agents in Lancaster,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, uniess it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action is the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scroft ula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Prysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restore the wasted or diseased energies of the whole organism.

vate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. cathartic medicine.

CONSUMPTION. This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c.; and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever

A LL who want Azes of the real Collins & Co. mak should be particular to fiotice the stamps, as there are various counterfeits and initiations stamped Collins, and labelled much like ours, which are fraudulently sold in some parts of the United States as our manufacture. They are made in different parts of the country by vaious axe-makers, and are generally of very inferior quality. The genuine Collins axes, which have acquired such an extensive repartation, are invariably stamped "COLLINS & CO. HARTFORD," and each axe has a printed label with my signature. It is now more than Twenty-five years since we commenced the lusiness with the stamp of "Collins & Co., Hartford," and I do not now of any other axe-maker by the name of Colling k the United States.
